Procient in front-end and back-end technologies, including JavaScript, React and modern frameworks. Experienced in collaborating with cross-functional teams to deliver innovative IT solutions. Passionate about optimizingperformance,enhancinguserexperience,andimplementingsecure, scalable systems. Adept at problem-solving and continuously learning to stay updated with emerging technologies.

Work Experience

Web Developer
QvesysInfoTech-Kumbakonam

As a recent graduate and aspiring Full Stack Developer Intern, I have gained practical experience through internships and personal projects. I have developed a solid foundation in HTML, CSS, and JavaScript, creatingresponsive and user-friendly websites. During my internship, I collaborated with a team to redesign an existing website, enhancing its functionality and aesthetics, which resulted in a 20% increase in user engagement. I am eager to leverage my skills in a professional environment and contribute to innovative websolutions.

Education

BSC CS   Sep2022-Apr2025
GovernmentArtsCollege(Autonomous)Kumbakonam

During my Bachelor of Science in Computer Science (BSC CS), I achieved an Excellent grade, which reects my dedication and commitment to learning. Throughout the course, I gained a strong foundation in programming languages, data structures, algorithms, and software development principles. This educational journey has not only equipped me with technical skills but also fostered a passion for continuous learning and innovation.
